

And here's our next Big News..I know this post comes after so many days and their had been reasons to that. We had been little more than busy with the stuff which are coming in the May Month, the first Big news is the arrival of fastest & heavy duty CPANEL Servers for Linux. You might like to call them "The Great Khalli Servers" as these boxes are real tough, fastest very hardworking & efficient & yes...shiny & sparkling. The new Linux Boxes being launched are with the following configurations :

**Dual Intel 2.0 Ghz Harpertown Processors. 2 X 4. ( Total 8 processing Cores with 12 MB cache)**  
**2 X 500 Gb SATA II Drives.**  
**8 GB RAM on each machine**  
**CPANEL/Fantastico**  
**Daily/Weekly/Monthly Backups on second drive**  
**Daily Offnetwork Backup**  
**Firewall Protection**  
**Advanced AntiSpam managed by RightMX**  
**100 MBPS Network**  
**& a network which offers us 100 % Network Uptime guarantee.**

The boxes would be rolled down by Monday and we are inviting new customers to make these boxes their new home. Linux Customers would be getting announcement about the migration schedule by Monday and yes the migration as usual would be seamless, without any downtime and with no data loss. Infact most of your customers would not even know that any migration has happened other than the compliments you'll receive about the great performance these Bog Boys would offer. We'll be releasing some mean mean offers with these boxes for the new customers, keep checking our site to find one of them.

We all at WIPL have a deep love for technology something that drives us to this industry and personally I myself love to own the coolest and the newest gadgets..my love extends to my business as well where I always want to offer the latest & most advanced technology available in the industry to our customers and you'll notice that this has been in our tradition. In the year 2003, we become the first company to offer real 24/7 customer support, in the mid of year 2003 we were the first company to launch HELM based Windows Web Hosting in India. In 2004 We were among the pioneers to start our advanced messaging Solution with 100 % virus

protection & a 95 % Spam protection. We were the first company in India in 2006 to acquire another Hosting Co. some of you who are not aware of this, we acquired Znet India's Reseller Hosting Division [www.reseller2host.com](http://www.reseller2host.com) in the year 2006 on a cash down purchase. In the year 2007 we had the latest addon's to our services and in year we launched Windows 2008 Hosting, Silverlight & lot more which is already planned on the way.

Leadership is the tradition at WIPL and you'll see a lot of new additions to our service in next few weeks...something which has never been offered by any other web hosting company in India.

Take Care & Have a Great Weekend

Ravish
